

I Can! is a three level programme for preschool students who are starting their bilingual education. It is a window of learning that helps children to see that there is more than one way of viewing the world. It offers a fascinating opportunity for learning English through a selection of stimulating components, original and traditional children's literature, skill-development, projects and the following features:

Language focus:

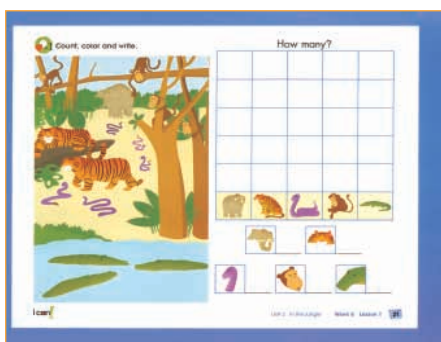

It aims to help children to do things independently, as well as to work together with their classmates, taking them through three stages of language acquisition: pre-production, early production, speech emergence.

- ★ The programme provides a variety of activities that reinforce and complement the Chilean Pedagogic Program allowing students to develop the skills and achieve the levels proposed by the Pedagogic Program for Pre-school Education.
- ★ It reinforces the communicative abilities students achieve in their mother tongue incorporating new vocabulary, structures and functions related to their lives.
- ★ It helps students to acquire phonological conscience by providing them with pre-reading and pre-writing activities.
- ★ It encourages children to appreciate literature containing one original or traditional story per unit.

Math focus:

- ★ It stimulates logical mathematical thinking through a variety of activities such as comparing, sequencing, grouping and counting.

Science Focus:

- ★ It helps students develop the basic abilities for the scientific method by exploring, observing, inferring.

The series incorporates clearly identified activities for multiple intelligence and cross-curricular lessons making the students to discover their personal talents and being highly persuaded to use English beyond their classrooms in their regular lives.

I Can! has been created according to the international standards proposed by the CEFR and takes students to a Starter level from YLE.

The series also offers teachers the possibility to explore more activities on its web page www.mijardin.cl

7-up
Hours a week

- ★ **Teacher's Guide:** with easy to follow teacher's notes, which integrate the whole programme and offer carefully developed lesson plans that will ensure well-balanced classes. Easily identifiable icons mark when each component is to be used.
- ★ **Interactive posters:** which allow the teacher to present and practise the language simply and clearly.
- ★ **Class CD:** which contains recordings by English native speakers of all the audio activities such as songs, chants, rhymes, and stories with tracks included at the end of the Teacher's guide.
- ★ **Stick puppets:** to motivate students into active participation in class, as well as being the model in the different dialogues.
- ★ **Storycards:** They are an enlarged colour reproduction of the stories in the Student's book. Stories that are original and traditional expose children to authentic language used naturally.

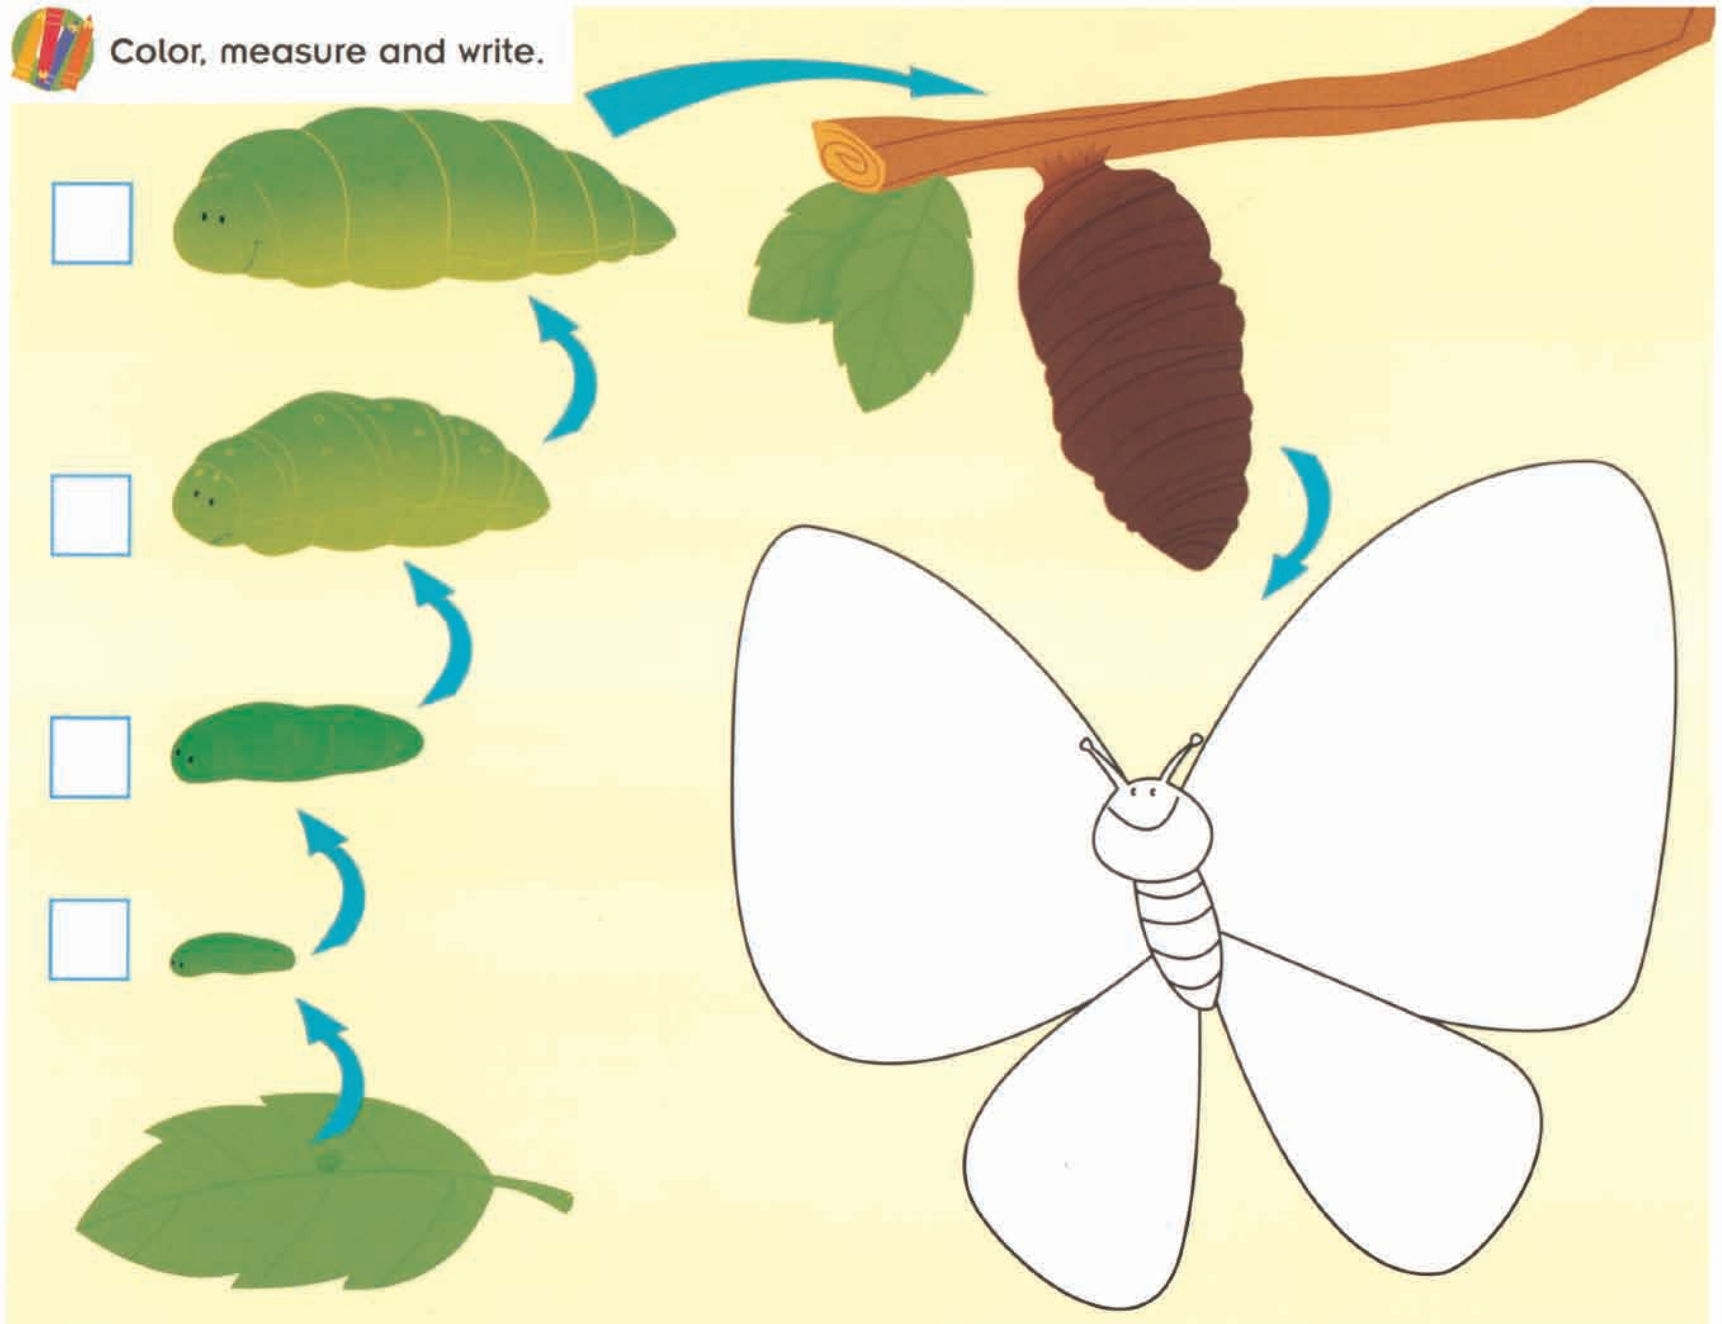

- ★ **Student's Book:** containing 124 full-colour pages with a great variety of fun activities and beautiful illustrations. At the back of the book there is a Picture Dictionary section with the key vocabulary for each unit.
- ★ **Student CD:** includes recordings by native English speakers of all the stories, chants and songs. It can be used by the students inside and outside the classroom. This helps them to get familiar with English sounds, to learn new vocabulary and reinforce language structures.
- ★ **"I Can Color" book:** all the story pages appear here for students to colour at their leisure or according to teacher's instructions; it can be used to reinforce the story in the class or at home.

- ★ **Practice Book:** Contains 72 activities, 36 of which are detachable to provide extra hands-on practise. Some of these activities include:
 - ★ Cutting out figures
 - ★ Gluing collage material
 - ★ Making models
 - ★ Plasticine clay modelling
 - ★ Painting

Color, measure and write.

Circle and read.

Wash your hands.

Cover your mouth.

Put it in the trash can.

Protect yourself from the sun.

 = 1 Count, color and write.

How many?
