

# Jellybeans

**Jellybeans** is a three-level course for pre-school students which incorporates the three relevant learning fields that are the main foundation for their subsequent regular education.

## Language focus:

- ★ It follows the natural three-phase process that each student assumes at his/her own pace: Pre-production, Early production, and Speech emergence.
- ★ It reinforces the communicative abilities students achieve in their mother tongue incorporating new vocabulary, structures and functions related to their lives.
- ★ It complements the *Bases Curriculares de la Educación Parvularia* and the **MPA** through its different activities which help students to get the levels proposed by the Pedagogic Program for Pre-school education.
- ★ It helps students to develop phonological conscience by providing them with pre-reading and pre-writing activities.
- ★ It encourages children to appreciate literature

## Math focus:

- ★ It stimulates the logical mathematical thinking through a variety of activities such as comparing, sequencing, grouping and counting.

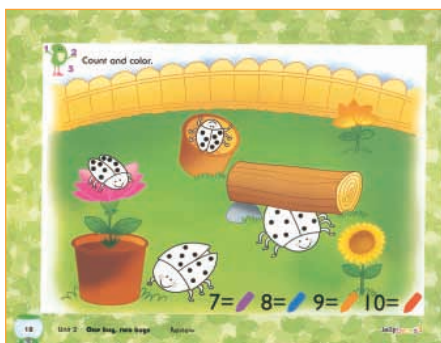

## Science Focus:

- ★ It helps to develop the basic abilities for the scientific method by exploring, observing and inferring.

The series incorporates clearly identified activities for multiple intelligence and cross-curricular lessons allowing the students to discover their personal talents and persuading students to use English beyond their classrooms in their regular lives.

**Jellybeans** has been created according to the international standards proposed by the CEFR and takes students to a Starter Level from YLE.

The series also offers teachers the possibility to explore more activities on its web page [www.mijardin.cl](http://www.mijardin.cl)

Levels

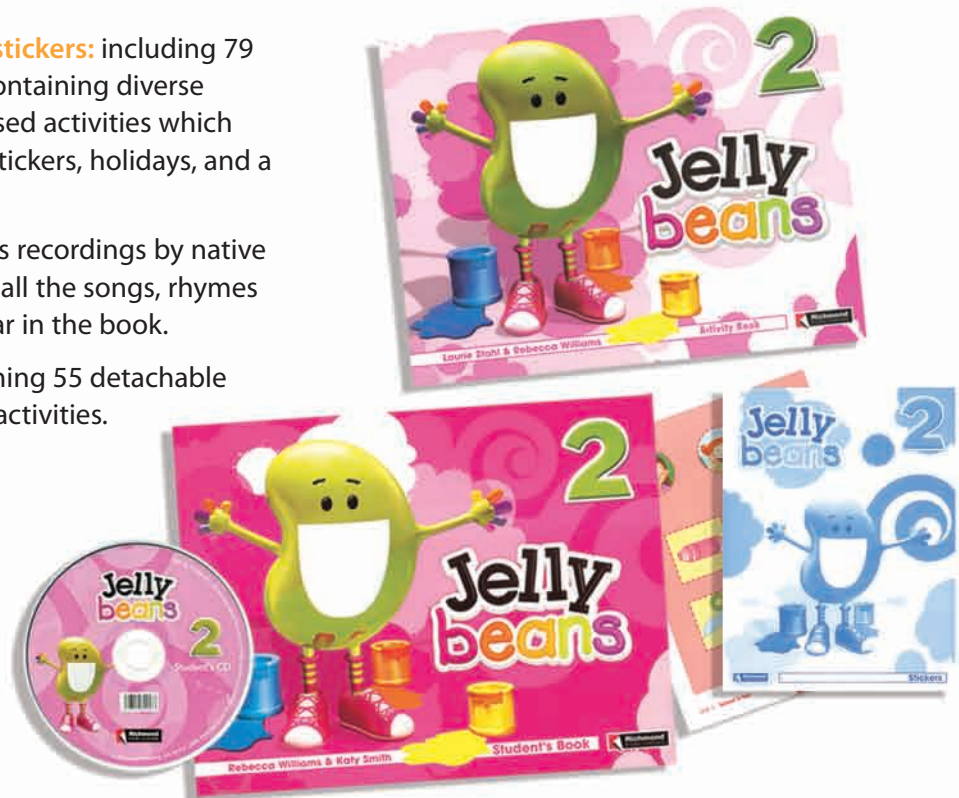

4-6

Hours a week

- ★ **Teacher's Guide:** with easy to follow teacher's notes, which integrate the whole program and offer carefully developed lesson plans that will ensure well-balanced classes. Easily identifiable icons mark when each component is to be used.
- ★ **Interactive posters:** which allow the teacher to present and practise the language simply and clearly.
- ★ **Class CD:** which contains recordings by English native speakers of all the audio activities such as songs, chants, rhymes, and stories with tracks included at the end of the Teacher's Guide.
- ★ **Stick puppets:** to motivate students into active participation in class, as well as being the model in the different dialogues.
- ★ **Story book:** to stimulate students' use of the language and to expose them to literature, the series includes a large story book with original and traditional stories that expose children to authentic English used naturally.

- ★ **Student's Book with stickers:** including 79 eye-catching pages containing diverse language and skill-based activities which integrate interactive stickers, holidays, and a picture dictionary.
- ★ **Student's CD:** includes recordings by native speakers that contain all the songs, rhymes and stories that appear in the book.
- ★ **Activity Book:** containing 55 detachable pages with hands on activities.

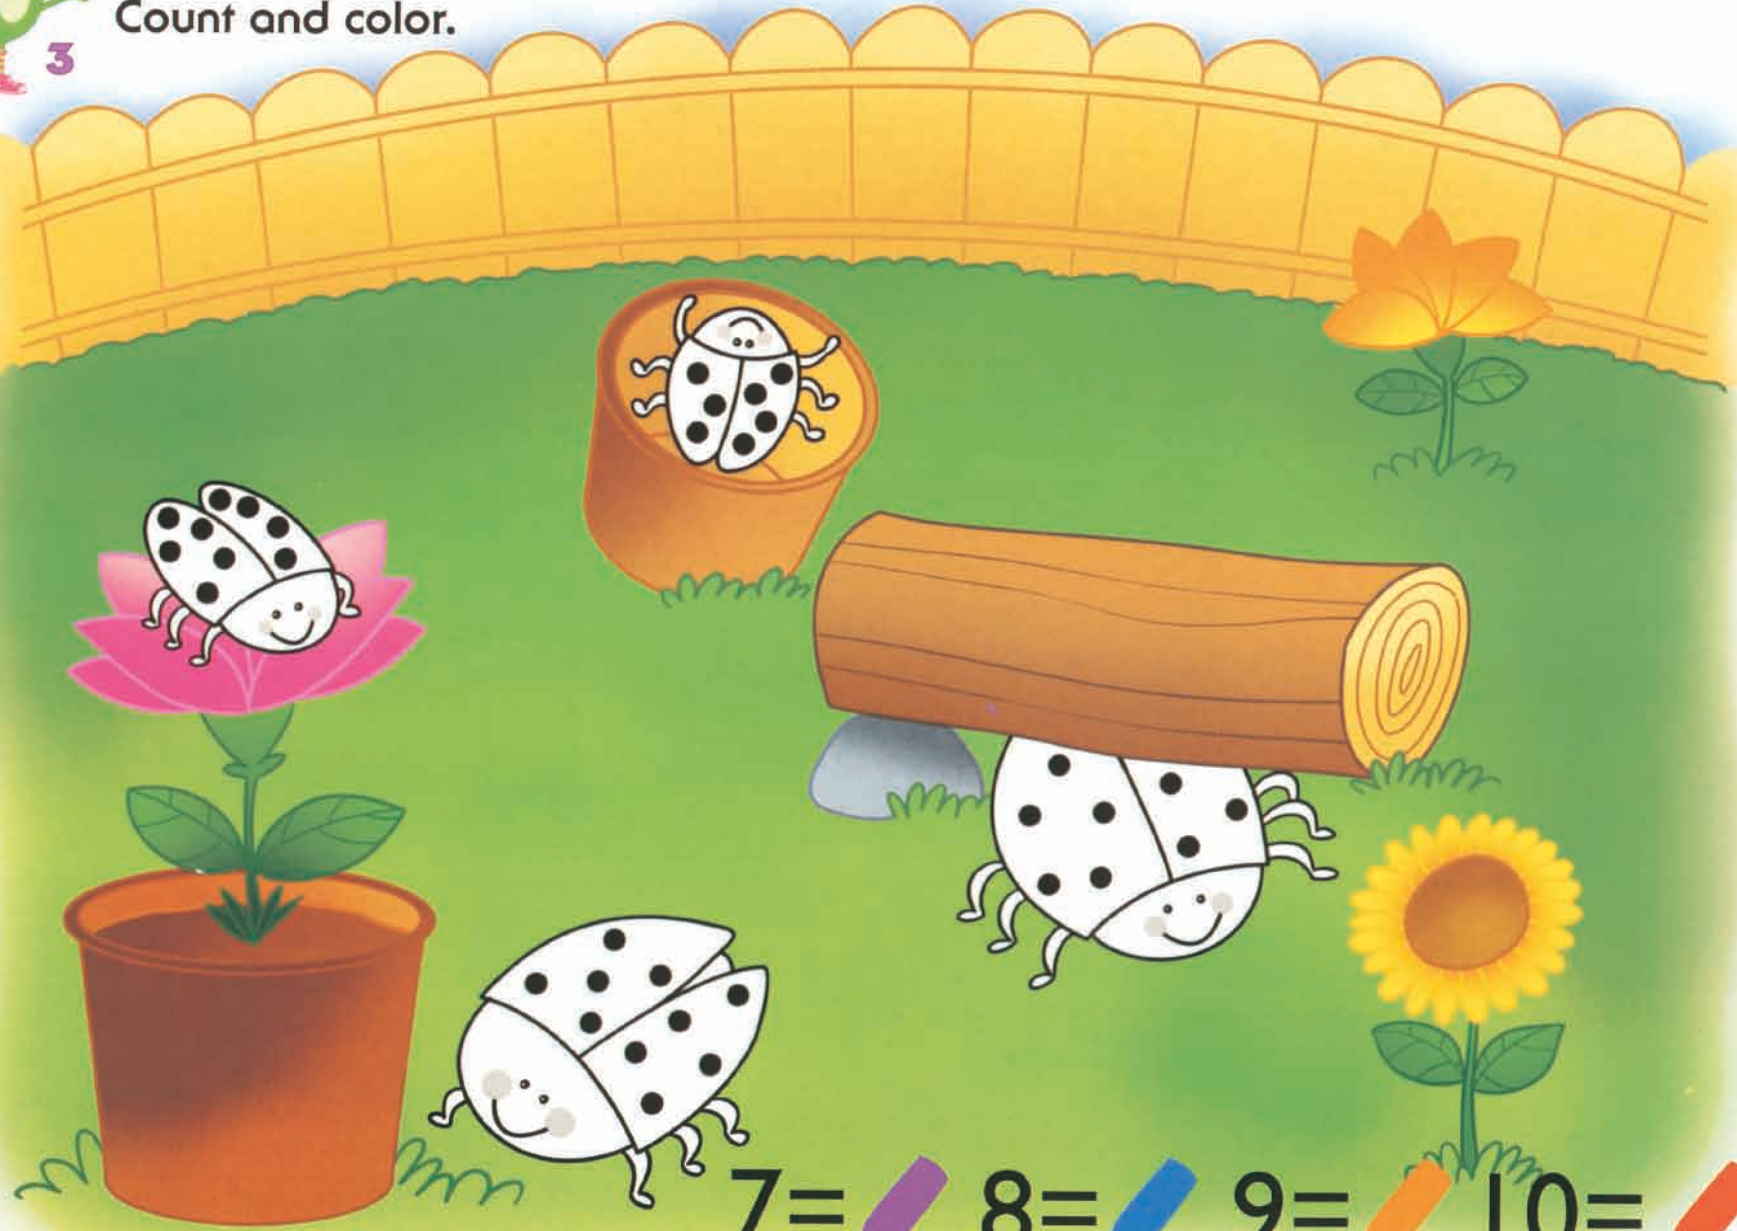

Look and stick.

Count and color.

7 =  8 =  9 =  10 = 

Trace and stick.
